INTERNSHIP

- Software Testing intern
Inmakes Infotech pvt.Ltp - Septemper 2023 - December 2023
- i have completed a Three month internship as a Software Testing Intern at Inmakes Infotech IT company. During my internship, I gained valuable experience and knowledge in software testing.
- My three month internship experience at Inmakes Infotech IT company, where i specialized in online training, I also had the opportunity to work on a capstone project focused on manual testing. For this project, I was assigned to the Scent Arts website, where i actively conducted manual testing to ensure its functionality and usability.
- During the capstone project, I employed my expertise in manual testing techniques and utilized my attention to detail to thoroughly assess the website's features, functionalities, and user interface. I conducted comprehensive tests, identifying and documenting any issues or areas for improvement. I collaborated with the development team to communicate and address these findings, ensuring the delivery of a high-quality final product.
- Overall, the capstone project on manual testing for the Scent Arts website was an invaluable experience that provided me with hands-on exposure to the challenges and intricacies of ensuring the quality of a live website. I
